IT IS THE RESPONSIBILITY OF THE OWNER TO SUPPLY APPROVED TYPE CONTAINERS, 2 PER CAGE, ONE FOR WATER AND ONE FOR FEED; EACH CAGE MUST HAVE 2 PROPER CONTAINERS. **Containers must be Kuhl Corporation Cup-K or equivalent as approved by the Poultry Show Director. Approved feed and water containers will be available for purchase in the Poultry Exhibit Barn.** Birds must be checked on a daily basis and cleaned as necessary. All feed/water containers must be secured to cage sides or front corners to prevent tipping over. Even for small bantams, hook-on feeders should be on at least the second bar from the bottom to prevent soiling.

We are pleased to "freshen" feed and water in the morning, since most exhibitors cannot be present at that time. HOWEVER, each bird exhibited must be checked, either by the exhibitor or his representative daily and cleaning and feeding done as necessary. Supplies are available in the show hall. Waterfowl especially require daily feeding and cleaning. The water container should not be open enough to encourage bathing, as the bedding becomes to wet for good sanitation.

### 13. Waterfowl **must be cleaned on a daily basis.**
